Sage 50 User's Guide

To access a Sage 50 company, a user must be licensed. When you start granting new users security and access rights, Sage 50 will automatically license as many users as you have licenses for. For example, if you have five licenses according to your agreement, Sage 50 will automatically license the first five users for which you set up security/access rights.

Licensing Sage 50 Company Users

Sage 50 operates by default as Manager. Ideally, you should get into the habit of NOT using Manager profile. Before you add or Edit a user in Sage 50 Accounts you should be aware that the best practice is for you to create your OWN user name and then "hide" some icons that you never use which will make your Sage more efficient.

Sage 50C How to add a new user. - Compuland

Summary: In addition to everything in Sage 50 Pro, Sage 50 Complete offers single-user, 3-user, or 5-versions. The Customer, Vendor, & Inventory Management Centers make it faster and easier to locate information without running reports. Complete also adds phases and cost codes to the Job Cost module and throws in FAS for tracking fixed assets and depreciation.

Sage 50 Complete Accounting Features (formerly Peachtree)

Multi-User Mode. With a multi-user licence, multiple users can work on your company data at the same time, if you have installed Sage 50 Accounting onto your network and you run your company in multi-user mode. The number of users that can connect to your company data at one time depends on the Sage 50 Accounting product you are using and on the number of licences you purchase.

Multi-User Mode

When user names and passwords are set up, Sage 50 prompts you for a user name and password combination when you open a company. If a user knows the password, he or she can access the areas of the program to which you have rights. These rights are set up as a role that can be as specific your company as you want to make it.

Set Up Company Users, Passwords, and User Roles
