The Most Active Options page highlights the top 500 symbols (U.S. market) or top 200 symbols (Canadian market) with high options volume. Symbols must have a last price greater than 0.10. We divide the page into three tabs - Stocks, ETFs, and Indices - to show the overall options volume by symbol, and the percentage of volume made up by both calls and puts.

The Top Technical Indicators for Options Trading

Trading volume on an option is relative to the volume of the underlying stock. Traders should compare high options volume to the stock's average daily volume for clues to its origin. When an option has high volume activity, it usually indicates one of three things. It may indicate that a major event is about to take place.
