Manufacturing Montreal: The Making of an Industrial Landscape, 1850-1930. By Robert Lewis (Baltimore, Johns Hopkins University Press, 2000) 336 pp. \$45.00 . Lewis has focused his geographical curiosity and insight on studying the remaking of the most important urban industrial landscape in Canada from the early Victorian period to the Great Depression.

The Making of an Industrial Landscape, 1850 ... - Project MUSE

In Manufacturing Montreal Robert Lewis provides a detailed historical geographic account of a major North American city's industrial landscape from the beginnings of industrialization to the Great Depression. Challenging the traditional view that urban expansion due to industrial decentralization is a twentieth-century phenomenon, Lewis demonstrates that the process of industrial decentralization has been ongoing since the 1850s.

The making of the industrial landscape (Book, 1982 ...

Infrastructure is a book about all the stuff that people have built on the landscape we live in—the machinery that supplies us with raw materials, food, water, and energy, and the networks of roads, rails, and communications lines that hold civilization together. This is a nature guide to everything that isn't nature.

Making Industrial Pittsburgh Modern: Environment ...

Beginning in the 18th century the Industrial Revolution made fundamental changes in agriculture, manufacturing, transportation and housing. Architecture changed in response to the new industrial landscape. Prior to the late 19th century, the weight of a multistory building had to be supported principally by the strength of its walls.
