General rule. Under IRC § 1014(a), which applies to an asset that a person (the beneficiary) receives from a giver (the benefactor) after the benefactor dies, the general rule is that the beneficiary's basis equals the fair market value of the asset at the time the benefactor dies. This can result in a stepped-up basis or a stepped-down basis.

Water is at the heart of all we do. Our products. Our company. Our customers’ lives and our own. Safe water is critical to daily life, and the fact that one-third of the world’s population lives without it is unacceptable. The ongoing global pandemic has revealed just how essential safe water is, not only for drinking, but for handwashing and healthy hygiene.

Two Ways to Calculate the P/B Ratio . If you choose to calculate the ratio the first way, the company's market capitalization is divided by the company's total book value from its balance sheet.But, if you choose to calculate the ratio the second way (i.e., using per-share values), you must divide the company's current share price by the book value per share.
