It's easy to search Wikibooks by topic, and there are separate sections for recipes and children's textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

You Are Your Child's First

In some cases, your child's health care provider may decide to postpone vaccination to a future visit. Children with minor illnesses, such as a cold, may be vaccinated. Children who are moderately or severely ill should usually wait until they recover before being vaccinated. Your child's health care provider can give you more information.

At first, your child needs to cut back on physical activities and those that require a lot of concentration. Then, he or she can start trying these activities again. Symptoms don't have to be completely gone for your child to add activities.

Concussions (for Parents) - Nemours KidsHealth

Only after your child is comfortable is it time for the dentist to take a quick peek at his mouth. This first visit accomplishes three things. First, it familiarizes your child with the staff and the office environment in a non-threatening way, thus building trust. Second, it introduces him (and you) to the specific language that the office uses.
